CONTENTS

Vol. 43, No. 1, March, 1973

Editorial 3

Concepts in the study of biogenic sedimentary structures .... *Robert W. Frey* 6

The sedimentologic and paleoecologic significance of *Lithotrya*, a rock-boring barnacle ..... *Wayne M. Ahr and Robert J. Stanton, Jr.* 20

Burrows of the ghost crab *Ocypode quadrata* (Fabricius) on the barrier islands, south-central Texas coast ..... *Gary W. Hill and Ralph E. Hunter* 24

Cliff sapping by molluscs in Oman ..... *C. Vita-Finzi and P. F. S. Cornelius* 31

Examination of textures and structures of mud in layered sediments at the entrance of a Georgia tidal inlet ..... *George F. Oertel* 33

Aspects of sedimentation and development of a carbonate bank in the Baracuda Keys, south Florida ..... *Paul B. Basan* 42

Carbon isotope composition of diagenetic carbonate nodules from freshwater swamp sediments ..... *Thomas Whelan III and Harry H. Roberts* 54

Organic and inorganic factors in Recent beach rock formation, Heron Island, Great Barrier Reef ..... *Peter J. Davies and D. W. Kinsey* 59

Recent dedolomitization and the origin of the Rusty Crusts of Northumberland ..... *W. S. Al-Hashimi and J. E. Hemingway* 82

The Monekopi Formation of north-central Arizona: an interpretation of ancient environments based upon sedimentary structures and stratification types ..... *E. Joan Baldwin* 92

Petrology and stratigraphy of the Epitaph Dolomite (Permian) in the Tombstone Hills, Cochise County, Arizona ..... *Susan Patch* 107

Syntaxial calcite borders on dolomite crystals, Little Falls Formation (Upper Cambrian), New York ..... *Donald H. Zenger* 118

Sedimentation of deep water conglomerates in Lower Ordovician rocks of Quebec—Composite bedding produced by progressive liquefaction of sediments ..... *Hugh E. Hendry* 125

The American Upper Ordovician Standard. XVII: areal variation of limestone frequencies in the Kope and Fairview Formations, Hamilton County, Ohio ..... *Robert H. Osborne* 137

Open-cast slump sheets and their relationship to sandstone beds in an Upper Cambrian flysch sequence, Tasmania ..... *Keith D. Corbett* 147

Algal stromatolites of the Early Proterozoic Wolkberg Group, Transvaal Sequence ..... *Andrew Button* 160

The St. Clair River Delta: sedimentary characteristics and depositional environments ..... *J. M. Pezzetta* 168

Surf zone shape changes in quartz grains on pocket beaches, Cape Arago, Oregon ..... *Carmen J. F. Rottmann* 188

A wave tank analysis of the beach foreshore grain size distribution *J. R. Kolmer* 200

A note on asymmetrical structures caused by differential wind erosion of a damp, sandy forebeach ..... *Richard W. Berry* 205

Zone of influence—inner continental shelf of Georgia ..... *Gary N. Bigham* 207

The St. Clair River Delta: sedimentary characteristics and depositional environments ..... *J. M. Pezzetta* 168

Surf zone shape changes in quartz grains on pocket beaches, Cape Arago, Oregon ..... *Carmen J. F. Rottmann* 188

A wave tank analysis of the beach foreshore grain size distribution *J. R. Kolmer* 200

A note on asymmetrical structures caused by differential wind erosion of a damp, sandy forebeach ..... *Richard W. Berry* 205

Zone of influence—inner continental shelf of Georgia ..... *Gary N. Bigham* 207

Surface sediments of the Gulf of Panama ..... *Joseph C. MacIlvaine and David A. Ross* 215

Continental-shelf sediments off New Jersey ..... *William M. Frank and Gerald M. Friedman* 224

Textural changes as an indicator of sediment dispersion in the Northern Channel Island Passages, California ..... *James S. Booth* 238

Argentine Basin sediment sources as indicated by quartz surface textures ..... *David Krinsley, Pierre E. Biscaye and Karl K. Turekian* 251

Environmental and climatic controlled fractionation of elements in the Mesozoic carbonate sequences of the Western Carpathians ..... *Ján Veizer and Rudolf Demovič* 258

Alkalinity determinations in interstitial waters of marine sediments ..... *Joris M. Gieskes and W. Carl Rogers* 272

Vanished evaporites—significance of strontium minerals ..... *Ian West* 278

Correlative light optical and scanning electron microscopy of minerals: a methodology study ..... *L. P. Wilding and H. D. Geissinger* 280

Changes in clay mineral assemblages by sampler type ..... *Frederic R. Siegel and John W. Pierce* 287

Instant peels using polyester resin ..... *John Ostler and I. P. Martini* 291

Ultra-thin thin sections in carbonate petrology: a valuable tool ..... *R. C. Lindholm and D. A. Dean* 295

Impregnation of fine-grained sediments with a polyester resin: a modification of Altemuller's method ..... *Gail M. Ashley* 298

BOOK REVIEW 302

ANNOUNCEMENTS 303

CONTENTS

Vol. 43, No. 2, June, 1973

New Jersey continental shelf near bottom current meter records and recent sediment activity ..... *Charles E. McClennen* 371

Oceanic sediments and their diagenesis: some examples from deep-sea drilling ..... *Thomas A. Davies and Peter R. Supko* 381

Heavy minerals of Horn Island, northern Gulf of Mexico *William E. Harrison* 391

Heavy mineral concentrating processes and density/shape/size equilibria in the marine and coastal dune sands of the Apalachicola, Florida, region ..... *Frank W. Stapor, Jr.* 396

Heavy mineral assemblages in some Tertiary sediments in San Mateo County, California ..... *Thomas T. Tieh* 408

Ostler Lenses: possible environmental indicators in fluvial gravels and conglomerates ..... *I. Peter Martini and John Ostler* 418

The origin and significance of some downcurrent-dipping cross-stratified sets ..... *Nigel L. Banks* 423

Petrology of limestone lenses in the Casper Formation, southernmost Laramie Basin, Wyoming and Colorado . *John H. Hanley and James R. Steidtmann* 428

Morphological evolution of Cambrian algal mounds in response to a change in depositional environment ..... *Henry S. Chafetz* 435

Strontium isotope compositions of non-marine carbonate rocks from the Beacon Supergroup of the Trans-Antarctic Mountains ..... *Gunter Faure and Peter J. Barrett* 447

The significance of the solution of feldspar in porosity development ..... *Milton T. Heald and R. E. Larese* 458

Barium feldspars in Ordovician sediments, Oslo region, Norway ..... *Knut O. Bjølykke and W. L. Griffin* 461

Radiographic investigation of laminated and ripple cross-laminated flysch sandstones, Ouachita Mountains, Oklahoma *František Pícha and Lewis M. Cline* 466

Surface areas of biogenic carbonates and their relation to fossil ultrastructure and diagenesis ..... *Thomas F. Anderson, Michael L. Bender and Wallace S. Broecker* 471

The American Upper Ordovician Standard, XVIII: investigation of micrite in typical Cincinnatian limestones by means of scanning electron microscopy ..... *Cyril F. Lobo and Robert H. Osborne* 478

The sedimentology of a transgression: Portland Point and Cooksburg members (Middle Devonian), New York State ..... *I. Nicholas McCave* 484

Post-Ordovician to early Mesozoic history of the eastern Klamath subprovince, northern California ..... *Michael Murray and Kent C. Condie* 505

Mixed depositional environments in the Franciscan geosynclinal assemblage ..... *Vincent Matthews III and Daniel Wachs* 516

Sieve load equations and estimates of sample size ..... *Norman C. Janke* 518

A splitter for unconsolidated cores taken in plastic liners ..... *Thomas W. Durden and Hans Frohlich* 521

Soft-sediment faults in the Tesnus Formation and their relationship to paleoslope ..... *Alan Thomson* 525

Comparison between compressibilities of sands and clays ..... *George V. Chilingarian, C. T. Sawabini and Herman H. Rieke, III* 529

A method of displaying sedimentary structures in micritic limestones ..... *Tove G. Bockelie* 537

An x-ray technique for distinguishing between detrital and secondary quartz in the fine-grained fraction of sedimentary rocks ..... *Eric V. Eslinger, Lawrence M. Mayer, Thomas L. Durst, John Hower and Samuel M. Savin* 540

An elutriator method for particle-size analysis with quantitative silt fractionation ..... *Leon R. Follmer and A. H. Beavers* 544

A vibratory coring system for continental margin sediments ..... *Robert L. McMaster and Charles E. McClennen* 550

A sediment squeezer for removal of pore waters without air contact ..... *Emil K. Kalil and Martin Goldhaber* 553

Near-shore ripples: some hydraulic relationships ..... *A. S. Trenhaile* 558

Sedimentary structures and trace fossils as criteria for distinguishing peritidal deposits: Hamilton Group (Middle Devonian), New York State ..... *Salvatore J. Mazzullo* 569

DISCUSSIONS

Intragranular growth of marine Aragonite and Mg-Calcite: evidence of precipitation from supersaturated seawater: by T. Alexandersson .... *H. J. McCunn* 573

Intragranular growth of marine Aragonite and Mg-Calcite: evidence of precipitation from supersaturated seawater: a reply ..... *Torbjörn Alexandersson* 573

Albite of secondary origin in Charny Sandstones, Quebec: by G. V. Middleton ..... *Jean Lajoie* 575

Albite of secondary origin in Charny Sandstones, Quebec: a reply .... *Gerard V. Middleton* 576

SEPM Officer Nominees 585

CONTENTS

Vol. 43, No. 3, September, 1973

Intertidal carbonate cementation Grand Cayman, West Indies ..... *Clyde H. Moore, Jr.* 591

Algal origin of dolomite laminations in stromatolitic limestone ..... *Conrad D. Gebelein and Paul Hoffman* 603

Sodium in carbonate sediments and rocks: A possible index to the salinity of diagenetic solutions ..... *L. S. Land and G. K. Hoops* 614

Dissolution of shell material with no disruption of primary sedimentary structures ..... *D. G. Stephens, J. E. Eason, and G. W. Pedlow* 618

Depositional environments and origin of the fine-grained limestones of the Bigby-Cannon Formation (Middle Ordovician), Central Basin, Tennessee ..... *Leonard P. Alberstadt* 621

Rapid chamber-filling growth of marine aragonite and Mg-calcite ..... *Ralph Moberly* 634

Deformed oolites in the Pre-cambrian Bhander Limestones, India ..... *Bhagabati Sarkar* 636

Petrographic and paleontologic characteristics of the Rickreall Limestone (Eocene) of northwestern Oregon ..... *S. Boggs, Jr., W. N. Orr, and E. M. Baldwin* 644

Lithostratigraphic analysis of the Bird Spring-Callville Group and Pakoon Formation (Pennsylvanian-Lower Permian), southern Clark County, Nevada ..... *D. N. Lumsden, M. T. Ledbetter, and G. T. Smith* 655

The diagenesis and low-grade metamorphism of Devonian styliolinid-rich pelagic carbonates from West Germany: Possible analogues of Recent pteropod oozes ..... *M. E. Tucker and A. C. Kendall* 672

Correlation of fine carbonaceous bands across a Precambrian stagnant basin ..... *Richard P. Huebschman* 688

Cristobalite: Its relationship to chert formation in selected samples from the Deep Sea Drilling Project ..... *Robert Greenwood* 700

Origin of ironstones, an example from the Middle Niger Valley, Nigeria ..... *D. R. Adeleye* 709

Sedimentary serpentinites from the Mid-Atlantic Ridge .... *Enrico Bonatti, Jose Honnorez and Stefan Gartner, Jr.* 728

Sublittoral sheet sandstones ..... *Roland Goldring and Paul Bridges* 736

Evaluation of a conceptual model for the transverse sediment transport system of a coastal barrier chain, Middle Atlantic Bight ..... *Gerald L. Shideler* 748

Estuarine sandstone filling tidal scours, Lower Cretaceous Fall River Formation, Wyoming ..... *C. V. Campbell and R. Q. Oaks, Jr.* 765

Paleocurrent analysis of trough cross stratification ..... *R. H. Dott, Jr.* 779

Orientation analysis of trough cross stratification in Upper Cambrian Sandstones of western Wisconsin ..... *P. C. Michelson and R. H. Dott, Jr.* 784

Longitudinal ripples formed by overland flow and tidal currents .... *M. P. Mosley* 795

Origin and distribution of sands and gravels on the northern continental shelf off Washington ..... *K. Venkatarathnam and Dean A. McManus* 799

Distribution and composition of suspended sediment in the bottom waters of the Washington continental shelf and slope ..... *E. T. Baker* 812

Physical properties and suspended matter of surface waters in the southeastern Atlantic Ocean ..... *K. O. Emery, J. D. Milliman, and Elazar Uchupi* 822

A special mechanism for varve formation in a glacial lake ..... *C. I. Dell* 838

Dissected marine terraces on Santa Catalina Island, California . *Taylor H. Loop* 841

Graded beach gravels as palaeowind indicators ..... *John McManus* 844

Monroes: A type of so-called mud volcanoes in tidal flats .. *Jean-Claude Dionne* 848

The problem of beach cusp development ..... *A. T. Williams* 857

The effect of grain orientation on Fourier shape analysis .. *Stephen E. Tilmann* 867

Composition of sand released from three source areas under humid, low relief weathering in the North Carolina piedmont .... *William R. Mann and Victor V. Cavaroc* 870

Grain surface etching features of some heavy minerals .... *Riyadh A. Rahmani* 882

An appraisal of the significance of sieve intervals in grain size analysis for environmental interpretation .... *John R. Hails, Barry Seward-Thompson and Lynne Cummings* 889

Peat balls in late-Holocene sediments of Essex, England ....*J. Trevor Greensmith and E. Vivian Tucker* 894

Inexpensive dual beam turbidimeter .... *Cathie Lubell, Thomas Barry, Edward Brody and Gregory Hearn* 898

Method of randomly distributing grains for microscopic examination .... *Ted C. Moore, Jr.* 904

BOOK REVIEW 907

ANNOUNCEMENTS 908

SOCIETY RECORDS AND ACTIVITIES
Reports and Minutes of 47th Annual Meeting 909

CONTENTS

Vol. 43, No. 4, December, 1973

Boron in illite as an indicator of paleosalinity of Illinois coals ..... *B. F. Bohor and H. J. Gluskoter* 945

Variation in clay mineral X-ray diffraction results with the quantity of sample mounted ..... *Per R. Stokke and Bobb Carson* 957

The Dorag Dolomitization model—Application to the Middle Ordovician of Wisconsin ..... *Khosrow Badiozamani* 965

Control and distribution of uranium in coral reels during diagenesis ..... *Gedalia Gvirtzman, Gerald M. Friedman, and Donald S. Miller* 985

Supratidal environment and geochemistry of some Recent dolomite concretions, Broad Sound, Queensland, Australia ..... *Peter J. Cook* 998

Phreatic vs. vadose diagenesis: Stratigraphy and mineralogy of a cored borehole on Barbados, W. I. ..... *Randolph P. Steinen and R. K. Matthews* 1012

Recent stromatolites from hydromagnesite and aragonite depositing lakes near the Coorong Lagoon, South Australia ..... *M. R. Walter, S. Golubic, and W. V. Preiss* 1021

Polyphase limestone dikes in the Oamaru region, New Zealand *Douglas W. Lewis* 1031

The Timeball Hill Formation—A fossil delta ..... *K. A. Eriksson* 1046

Provenance of Quarternary sediments on the Labrador continental shelf and slope ..... *Roger M. Slatt and Alexander B. Lew* 1054

Deltaic depositional environments in the Hamilton Group (Middle Devonian), southeastern New York state ..... *S. J. Mazzullo* 1061

Opaline spheres: Loosely-packed aggregates from silica nodule in diatomaceous Miocene Fuller's Earth .... *Charles O. Pollard, Jr. and Charles E. Weaver* 1072

Silcretes and associated silica diagenesis in southern Africa and Australia ..... *David Smale* 1077

Mucilaginous matrix of some Estuarine sands in Connecticut ..... *Larry Frankel and Dennis J. Mead* 1090

Some inference problems in paleocurrent studies ..... *David J. Sanderson* 1096

The threshold of sediment movement under oscillatory water waves ..... *Paul D. Komar and Martin C. Miller* 1101

An occurrence of "brick pattern" oscillatory ripple marks at Mono Lake, California ..... *Paul D. Komar* 1111

Flume experiments on the transition from ripples to lower flat bed with increasing sand size ..... *John B. Southard and Lawrence A. Boguchwal* 1114

Ripple marks in quartzites from Kurnool Supergroup, Cuddapah Basin, India ..... *D. Madhava Rao and K. V. G. K. Gokhale* 1122

Pseudo-crosslamination formed by climbing adhesion ripples .. *Ralph E. Hunter* 1125

Internal geometry and origin of vegetated coastal sand dunes . *Victor Goldsmith* 1128

Environmental determination using hydrolic equivalence studies ..... *Richard H. Lowright* 1143

Mean magnetic susceptibility: A useful parameter for stratigraphic studies of glacial till ..... *Stephen P. Vonder Haar and W. Hilton Johnson* 1148

EDTA dissolution of gypsum, anhydrite, and Ca-Mg carbonates ..... *M. W. Bodine, Jr. and T. H. Fernalld* 1152

Determination of organic carbon in modern carbonate sediments ..... *Alan A. Roberts, James G. Palacas, and Irving C. Frost* 1157

Curves for the determination of compaction using deformed cross-bedding .... *Graham Borradaile* 1160

Lognormal size distribution of particulate matter ..... *Khalid Mahmood* 1161

Apparatus for studies of artificial sediments ..... *B. Bubela and J. Ferguson* 1167

Measuring volumes of sedimentary grains ..... *Mounir T. Moussa* 1171

Gelatin coated microscope slides in sedimentary size analysis ..... *Lesley Anne Perrie and Peter A. Peach* 1174

DISCUSSIONS

Paleoflow characteristics of a Late Cretaceous river in Utah from analysis of sedimentary structures in the Ferron sandstone: A discussion .... *Dag Nummedal* 1176

Paleoflow characteristics of a Late Cretaceous river in Utah from analysis of sedimentary structures in the Ferron sandstone: A reply ..... *Edward Cotter* 1179
